

Peter Whiteside

Principal Building Inspector

I am a Principle Building Inspector at JPI Building Control Approvers Ltd & JPI Fire & Building Regulation Consultants Ltd. I have over 19 years of experience in Building Control and a further 4 years in the wider construction/surveying industry prior.

Previously, I have formally held positions with a major national Approved Inspector/RBCA and progressed in my career from trainee to Director level including setting up multiple offices and growing client bases, seeing the business grow from a single office to one of the largest provider of Building Control services in the country. During this time I started to specialise in more complex projects, allowing myself to successfully register as a Class 3G/H Specialist Building Inspector.

I pride myself in being client focused and navigating complex technical and regulatory matters. I provide friendly expert assistance and enjoy finding practical solutions to assist our clients. My project experience covers the spectrum of sectors including High Rise Residential, Large Warehouses, Shopping Malls. Offices/Commercial Buildings, Hospitals/Care homes and Mixed-Use.

My current focus is on providing regulatory services (RBI) for our Registered Building Control Approver function on a number of key projects, as well as also providing Building Control Advisory to clients navigating the HRB Gateway 2 and 3 process.

Professional Qualifications

- BSc (Hons) Building Surveying
